

Meet the Belles

This is Dixie

Dixie - What can I say about Dixie? Great things come in small packages. So does dynamite. Dixie is one FEISTY, fun loving, active, typical beagle puppy girl. She's the ringleader - she's not aggressive but she's in charge. She barks, we listen. She torments her oldest foster brother endlessly - probably for the fun of it. She LOVES to play, and fear is not in her vocabulary. Dixie can climb over the baby gate, and will investigate anything. She loves to sleep in her foster sister's doghouse, which does not sit well with her foster sister. At the end of the day, when you pick her up to snuggle, she melts right into you, with sighs and whuffles, as if to say, even tough girls have a tender side!

This is Georgia

Georgia- Georgia is outgoing and a bit vocal, especially when she thinks she's being ignored. But who could ignore such a classic, tri-color beauty? One look, and you're hooked! Georgia is very smart, and an excellent problem solver. She is curious, and she is fearless. "Look before you leap" is lost on this girl. She runs with the big dogs, and when they bark, she barks back. She likes dogs, she likes people. She runs around the yard, coming back now and then to plant her front feet on her foster mom as if to say "Thanks! This is so cool!" She plays hard, and after a busy day of running and playing, she loves to snuggle up on her foster mom's lap and fall asleep.

This is Julep

Julep - Julep is the living example of "happiness is a warm puppy". Her soft brown ears and big brown eyes will just steal your heart, and the way she sits and tilts her head to watch you, will make you smile and laugh and want to pick her up for a hug. She is not as feisty as her sister Dixie, but she gets her point across just the same. She is fearless, she is inquisitive, and she can climb over the baby gate - (we think she taught Dixie the same trick). Julep is very smart, and will learn commands quickly. She loves to explore, she loves to play, and she loves to cuddle. She likes to run with her foster brothers, and she'd snuggle with her foster sister, if only Daisy would let her. Julep is an expert snuggler, and would like nothing less than a lap to curl up in for a snooze after a long day of puppy activities.

Tara - Tara is a quiet girl - she's not shy, though. She tends to hang back a bit when her sisters clamor for attention, as if she's waiting to be invited. She'll sit down with her tail wagging a mile a minute. She doesn't need to speak, she just has to look at you, and those gorgeous brown eyes will melt your heart, and you'll want to pick her up for a snuggle. She'll snuggle right back, with a little puppy gurgles and whuffles. She sometimes smiles as though she knows something we don't. At mealtime, Tara will start out at her dish, but she seems more interested in what the others are eating. Being a beagle puppy, she's smart, and she's curious. She is not afraid of much, if anything, and likes to run rings around her older, bigger foster brothers, and she loves to explore her territory. Her favorite game is to dodge and chase the falling leaves. If you're looking for an energetic companion and an endless supply of gorgeous beagle puppy love, Tara is your girl!
